

## Data Innovations Achieves VMware Ready™ Status

March 01, 2011 — Data Innovations' Instrument Manager, today announced that its Instrument Manager has achieved VMware Ready™ status. This designation indicates that Instrument Manager has undergone detailed test procedures and is supported on VMware vSphere® for production environments.

*"We are pleased that Data Innovations' Instrument Manager™ qualifies for the VMware Ready™ logo, signifying to customers that it works effectively with VMware vSphere®, and can be deployed in production with confidence," said Sanjay Katyal, vice president, Global Alliances & OEMs, VMware.*

The VMware Ready program is a co-branding benefit of the Technology Alliance Partner (TAP) program that makes it easy for customers to identify partner products certified to work with VMware cloud infrastructure. Customers can use these products and solutions to lower project risks and realize cost savings over custom built solutions. With thousands of members worldwide, the VMware TAP program includes best-of-breed technology partners with the shared commitment to bring the best expertise and business solution for each unique customer need.

Data Innovations Instrument Manager can be found within the online VMware Solution Exchange (VSX) at <http://www.vmware.com/partners/>

## About Data Innovations

Founded in 1989, Data Innovations (DI) is the world's largest, most successful clinical and blood laboratory middleware company. With a focus solely on laboratory data management, DI offers the most complete middleware system in the market to manage laboratory operations, including pre-analytical, analytical, and post-analytical sample processing and non-clinical tasks such as equipment maintenance and specimen archiving.
